[Congress Vs. the Bureaucracy](#) - Mordecai Lee 2012-09-13

Government bureaucracy is something Americans have long loved to hate. Yet despite this general antipathy, some federal agencies have been wildly successful in cultivating the people's favor. Take, for instance, the U.S. Forest Service and its still-popular Smokey Bear campaign. The agency early on gained a foothold in the public's esteem when President Theodore Roosevelt championed its conservation policies and Forest Service press releases led to favorable coverage and further goodwill. Congress has rarely approved of such bureaucratic independence. In *Congress vs. the Bureaucracy*, political scientist Mordecai Lee—who has served as a legislative assistant on Capitol Hill and as a state senator—explores a century of congressional efforts to prevent government agencies from gaining support for their initiatives by communicating directly with the public. Through detailed case studies, Lee shows how federal agencies have used increasingly sophisticated publicity techniques to muster support for their activities—while Congress has passed laws to counter those PR efforts. The author first traces congressional resistance to Roosevelt's campaigns to rally popular support for the Panama Canal project, then discusses the Forest Service, the War Department, the Census Bureau, and the Department of Agriculture. Lee's analysis of more recent legislative bans on agency publicity in the George W. Bush administration reveals that political battles over PR persist to this day. Ultimately, despite Congress's attempts to muzzle agency public relations, the bureaucracy usually wins. Opponents of agency PR have traditionally condemned it as propaganda, a sign of a mushrooming, self-serving bureaucracy, and a waste of taxpayer dollars. For government agencies, though, communication with the public is crucial to implementing their missions and surviving. In *Congress vs. the Bureaucracy*, Lee argues these conflicts are in fact healthy for America. They reflect a struggle for autonomy that shows our government's system of checks and balances to be alive and working well.

[OneFiveFour](#) - Lebbeus Woods 2011-02-16

Lebbeus Woods is a true visionary, whose drawings are among the richest and passionate as any in the history of architecture. For his first monograph, *OneFiveFour*, Woods painstakingly drew a book of two-page spreads that weave text, architectural elements, math, and physics into a unique vision of a new humanism for the information age. The powerful immediacy of the art makes it one of the most influential books we have ever published. Critic Michael Sorkin says it best: "In the mesmerizing, astonishingly wrought images of Lebbeus Woods...we are plunged into unfamiliar territory, a world of architecture beginning again....His ever-expanding discourse of the almost impossible is an inspiration not just to build, but to think."

The Lighthouse - Alison Moore 2017-07-10

Futh, a middle-aged, recently separated man heads to Germany for a restorative walking holiday. During his circular walk along the Rhine, he contemplates the formative moments of his childhood. At the end of the week, Futh returns to what he sees as the sanctuary of the Hellhaus hotel, unaware of the events which have been unfolding there in his absence.

Killer Fat - Natalie Boero 2012-09-12

In the past decade, obesity has emerged as a major public health concern in the United States and abroad. At the federal, state, and local level, policy makers have begun drafting a range of policies to fight a war against fat, including body-mass index (BMI) report cards, "snack taxes," and laws to control how fast food companies market to children. As an epidemic, obesity threatens to weaken the health, economy, and might of the most powerful nation in the world. In *Killer Fat*, Natalie Boero examines how and why obesity emerged as a major public health concern and national obsession in recent years. Using primary sources and in-depth interviews, Boero enters the world of bariatric surgeries, Weight Watchers, and Overeaters Anonymous to show how common expectations of what bodies are supposed to look like help to determine what sorts of interventions and policies are considered urgent in containing this new kind of disease. Boero argues that obesity, like the traditional epidemics of biological contagion and mass death, now incites panic, a doomsday scenario that must be confronted in a struggle for social stability. The "war" on obesity, she concludes, is a form of social control. *Killer Fat* ultimately offers an alternate framing of the nation's obesity problem based on the insights of the "Health at Every Size" movement.

The Boat Galley Cookbook: 800 Everyday Recipes and Essential Tips for Cooking Aboard - Carolyn Shearlock 2012-09-28

No matter what anyone tells you, boat cooking IS different from cooking ashore. The space is smaller, there's no grocery store 5 minutes away, you have fewer prepared foods and electric appliances, and food storage is much different. Despite cruising different oceans, we—Jan and Carolyn--both faced the same challenges: eating well while having time to enjoy all the other great aspects of cruising. We love to snorkel, swim, kayak, explore—and just sit and admire the view. We learned with the cookbooks we both had aboard, and wished for information that wasn't available--like when Jan ended up with a frozen chicken complete with head and feet and no instructions on how to cut it up. When we couldn't get foods such as sour cream, English muffins, spaghetti sauce or yogurt, we adapted recipes to make our own. Other times, we experimented with substituting ingredients--maybe the result wasn't identical, but it was still tasty. We ended up with over 150 substitutions and dozens of "make it yourself" options. As we traded recipes and knowledge with each other, we realized we were compiling information that became *The Boat Galley Cookbook*: 800+ recipes made from readily-obtainable ingredients with hand utensils, including numerous choices to suit every taste: not just one cake but 20, 16 ways to prepare fish, 10 regional barbeque sauces, and so on. Step-by-step directions to give even "non-cooks" the confidence they can turn out tasty meals without prepared foods. Detailed instructions on unfamiliar things like making yogurt and bread, grilling virtually every food imaginable, preparing and cooking freshly-caught fish and seafood, cutting up and boning meat, cooking in a Thermos and baking on the stove top, as well as lots of tips on how to do things more easily in a tiny, moving kitchen. All this in an easy-to-navigate format including side tabs on the Contents to help you find your way and extensive cross reference lists at the end of each chapter. Quick Reference Lists provide idea starters: suggestions of included recipes for such categories as Mexican,

Asian, and Potluck. The Boat Galley Cookbook is designed to help you every step of the way. We hope it becomes a trusted reference on your boat, and a source of many enjoyable meals.

Narcopolis - Jeet Thayil 2012-04-12

Shortlisted for the Man Booker Prize Written in poetic and affecting prose, Jeet Thayil's luminous debut novel charts the evolution of a great and broken metropolis across three decades. A rich, hallucinatory dream that captures Bombay in all its compelling squalor, *Narcopolis* completely subverts and challenges the literary traditions for which the Indian novel is celebrated. It is a book about drugs, sex, death, perversion, addiction, love, and God and has more in common in its subject matter with the work of William S. Burroughs or Baudelaire than with that of the subcontinent's familiar literary lights. Above all, it is a fantastical portrait of a beautiful and damned generation in a nation about to sell its soul.

Curious about constructions? Inside this book, you'll come face-to-face with 50 incredible structures, including: a fire-breathing octopus sculpture; the skateboard ramp you'd need to jump the Great Wall of China; a whole community of tree houses in Costa Rica; and a lifesize X-Wing Starfighter built of Legos. These and many more fascinating accounts of constructions both fantastically useful and gloriously unnecessary await inquisitive readers, aspiring engineers, and anyone who ever looked at a skyscraper and thought, "Yeah, but what if it had a roller coaster on top?"

Disney Pirates: The Definitive Collector's Anthology - Michael Singer 2017-04-11

"You believe in pirates, of course?" Walt Disney once asked on a Disneyland television program. . . . *Disney Pirates: The Definitive Collector's Anthology* delves behind-the-scenes across ninety years of Disney film, television, and park history. Pirates have captured people's imaginations for centuries, and Walt Disney believed in pirates as a source of great popular entertainment. Walt's very first all live-action feature film was based upon Robert Louis Stevenson's *Treasure Island*, and even before that, he selected J. M. Barrie's *Peter Pan*, in which pirates figure so prominently, as a key feature-length animated film for his studio.

Years later, *Pirates of the Caribbean* opened in Disneyland just months after Walt had passed away, making it one of the last Disney theme park attractions in which he was personally involved. That attraction ultimately spawned similar versions at Disney parks around the world, one of the most successful series in motion picture history with the five *Pirates of the Caribbean* films, and a vast themed land at Shanghai Disneyland called *Treasure Cove*--celebrating the entirety of the *Pirates of the Caribbean* franchise.

The Startup Owner's Manual - Steve Blank 2020-03-17

More than 100,000 entrepreneurs rely on this book for detailed, step-by-step instructions on building successful, scalable, profitable startups. The National Science Foundation pays hundreds of startup teams each year to follow the process outlined in the book, and it's taught at Stanford, Berkeley, Columbia and more than 100 other leading universities worldwide. Why? *The Startup Owner's Manual* guides you, step-by-step, as you put the Customer Development process to work. This method was created by renowned Silicon Valley startup expert Steve Blank, co-creator with Eric Ries of the "Lean Startup" movement and tested and refined by him for more than a decade. This 608-page how-to guide includes over 100 charts, graphs, and diagrams, plus 77 valuable checklists that guide you as you drive your company toward profitability. It will help you: • Avoid the 9 deadly sins that destroy startups' chances for success • Use the Customer Development method to bring your business idea to life • Incorporate the Business Model Canvas as the organizing principle for startup hypotheses • Identify your customers and determine how to "get, keep and grow" customers profitably • Compute how you'll drive your startup to repeatable, scalable profits. *The Startup Owner's Manual* was originally published by K&S Ranch Publishing Inc. and is now available from Wiley. The cover, design, and content are the same as the prior release and should not be considered a new or updated product.

Same Sun Here - Neela Vaswani 2012-02-14

In this extraordinary novel in letters, an Indian immigrant girl in New York City and a Kentucky coal miner's son find strength and perspective by sharing their true selves across the miles. Meena and River have a lot in common: fathers forced to work away from home to make ends meet, grandmothers who mean the world to them, and faithful dogs. But Meena is an Indian immigrant girl living in New York City's Chinatown, while River is a Kentucky coal miner's son. As Meena's family studies for citizenship exams and River's town faces devastating mountaintop removal, this unlikely pair become pen pals, sharing thoughts and, as their camaraderie deepens, discovering common ground in their disparate experiences. With honesty and humor, Meena and River bridge the miles between them, creating a friendship that inspires bravery and defeats cultural misconceptions. Narrated in two voices, each voice distinctly articulated by a separate gifted author, this chronicle of two lives powerfully conveys the great value of being and having a friend and the joys of opening our lives to others who live beneath the same sun.

[Chersonesan Studies 1](#) - Richard Posamentir 2012-02-02

Chersonesan Studies 1 presents the painted grave stelai of the Early Hellenistic necropolis of Chersonesos Taurike, a Greek city on the northern shore of the Black Sea. This unique collection of over one hundred

objects is of major interest to students of ancient art and Greek culture. Their polychrome decoration has been extraordinarily well preserved, a rarity in the ancient world. They compose a remarkable, even unique, body of evidence of Greek funerary memorial sculpture: their shapes are gender-specific, their depicted objects are gender- and age-specific, and they can be ascribed to a handful of specific workshops. Their surprising uniformity requires an explanation, since comparable assemblages from other parts of the Greek world show substantial diversity in all these aspects. This book provides the first complete catalog and description of the stelai, together with full-color illustrations of all the significant stelai and many details. Through his painstaking recovery and reassembling of fragments, as well as the use of advanced photographic techniques, Richard Posamentir has been able to add a whole new dimension to the study of these artifacts. The volume covers the history of the stelai, analysis of the workshops, and reconstruction of the necropolis that the stelai originally graced. A comparison chapter discusses how the stelai fit into the context of Greek funerary art and provides insights into the culture and society of a city on the Black Sea.

[The Well-Balanced Teacher](#) - Mike Anderson 2012-04-30

You've probably heard the advice "put on your own oxygen mask before assisting others." This is true both in airplanes and in classrooms—you have to take care of yourself before you can help someone else. If teachers are stressed out and exhausted, how can they have the patience, positive energy, and enthusiasm to provide the best instruction for students? Author Mike Anderson asked that question as a teacher himself, and the answers he found form the basis of The Well-Balanced Teacher. He found that teachers need to take care of themselves in five key areas to keep themselves in shape to care for their students. In addition to paying proper attention to their basic needs for nutrition, hydration, sleep, exercise, and emotional and spiritual refreshment, teachers also need Belonging: Teachers need to feel positive connections with other people, both in school and outside school. Significance: Teachers want to know that they make a positive difference through the work they do. Positive engagement: When teachers enjoy their work, they have great energy and passion for their teaching. Balance: Healthy teachers set boundaries and create routines so that they can have rich lives both in the classroom and at home. Anderson devotes a chapter to each of these needs, describing in frank detail his own struggles and offering a multitude of practical tips to help readers find solutions that will work for them. When teachers find ways to take care of their own needs, they will be healthier and happier, and they will have the positive energy and stamina needed to help their students learn and grow into healthy adults themselves.

[Lighthouses of the Great Lakes](#) - Daniel E. Dempster, Todd R. Berger 2002

The lighthouses of the Great Lakes, for so long guiding ships to safety across the rough waters, still stand as beacons to adventurous travelers. Rich with vintage and contemporary photographs, picturing the lighthouses inside and out, by day and by night, the book takes you into the fascinating history of the structures at Split Rock, Sandusky, Big Sable Point, Old Mackinac Point Light, and Marblehead Light, to name a few. Berger's stories about keepers and their families, horrific storms, and even encounters with ghosts bring to vivid life the lost world of these historic lighthouses. A thoroughly engaging tour page by

page, the book also makes travel to these destinations easy as well as edifying, with maps, directions, and a comprehensive appendix listing all the current lighthouses.

The Image of the City - Kevin Lynch 1964-06-15

The classic work on the evaluation of city form. What does the city's form actually mean to the people who

live there? What can the city planner do to make the city's image more vivid and memorable to the city dweller? To answer these questions, Mr. Lynch, supported by studies of Los Angeles, Boston, and Jersey City, formulates a new criterion—imageability—and shows its potential value as a guide for the building and rebuilding of cities. The wide scope of this study leads to an original and vital method for the evaluation of city form. The architect, the planner, and certainly the city dweller will all want to read this book.
