Crime Analysis for Problem Solvers in 60 Small Steps - R. V. G. Clarke 2005-10-01

This new manual, written by two leading crime

prevention experts, is intended for crime analysts and other police officials working on problem oriented policing projects. It covers the basics of

problem-oriented policing and shows how many new concepts developed to analyze crime patterns can sharpen understanding of crime and disorder problems. It also shows how the 25 techniques of situational crime prevention can greatly expand the problem-solving capacity of police. Finally, it gives guidance on ways to assess the effectiveness of action taken, including ways of testing for displacement. Motion Performance: Tales of a Muscle Car Builder - Martyn L. Schorr

Introduction to Statistics and Data Analysis - Roxy Peck 2005-12

Roxy Peck, Chris Olsen and Jay Devore's new edition uses real data and attention-grabbing examples to introduce students to the study of statistical output and methods of data analysis. Based on the best-selling STATISTICS: THE EXPLORATION AND ANALYSIS OF DATA, Fifth Edition, this new INTRODUCTION TO STATISTICS AND DATA ANALYSIS, Second Edition integrates coverage of the graphing calculator and includes expanded coverage of probability. Traditional in structure yet modern in approach, this text guides students through an intuition-based learning process that stresses interpretation and communication of statistical information. Conceptual comprehension is cemented by the simplicity of notation--frequently substituting words for symbols. Simple notation helps students grasp concepts. Hands-on activities and

Seeing Statistics applets in each chapter allow students to practice statistics firsthand.

Electric and Hybrid Cars - Curtis D. Anderson

2010-03-30

This illustrated history chronicles electric and hybrid cars from the late 19th century to today's fuel cell and plug-in automobiles. It describes the politics, technology, marketing strategies, and environmental issues that have impacted electric and hybrid cars' research and development. The important marketing shift from a "woman's car" to "going green" is discussed. Milestone projects and technologies such as early batteries, hydrogen and bio-mass fuel cells, the upsurge of hybrid vehicles, and the various regulations and market forces that have shaped the industry are also covered.

The Financial Crisis Inquiry Report - Financial
Crisis Inquiry Commission 2011-05-01

The Financial Crisis Inquiry Report, published by

the U.S. Government and the Financial Crisis Inquiry Commission in early 2011, is the official government report on the United States financial collapse and the review of major financial institutions that bankrupted and failed, or would have without help from the government. The commission and the report were implemented after Congress passed an act in 2009 to review and prevent fraudulent activity. The report details, among other things, the periods before, during, and after the crisis, what led up to it, and analyses of subprime mortgage lending, credit expansion and banking policies, the collapse of companies like Fannie Mae and Freddie Mac, and the federal bailouts of Lehman and AIG. It also discusses the aftermath of the fallout and our current state. This report should be of interest to anyone concerned about the financial situation in the U.S. and around the world. THE FINANCIAL CRISIS INQUIRY COMMISSION is an independent, bi-partisan, government-appointed panel of 10 people that was created to "examine the causes,

domestic and global, of the current financial and economic crisis in the United States." It was established as part of the Fraud Enforcement and Recovery Act of 2009. The commission consisted of private citizens with expertise in economics and finance, banking, housing, market regulation, and consumer protection. They examined and reported on "the collapse of major financial institutions that failed or would have failed if not for exceptional assistance from the government." News Dissector DANNY SCHECHTER is a journalist, blogger and filmmaker. He has been reporting on economic crises since the 1980's when he was with ABC News. His film In Debt We Trust warned of the economic meltdown in 2006. He has since written three books on the subject including Plunder: Investigating Our Economic Calamity (Cosimo Books, 2008), and The Crime Of Our Time: Why Wall Street Is Not Too Big to Jail (Disinfo Books, 2011), a companion to his latest film Plunder The Crime Of Our Time. He can be reached online at

www.newsdissector.com.

Earth Day - Melissa Ferguson 2021

Earth Day celebrates our beautiful planet and calls us to act on its behalf. Some people spend the day planting flowers or trees. Others organize neighborhood clean-ups, go on nature walks, or make recycled crafts. Readers will discover how a shared holiday can have multiple traditions and be celebrated in all sorts of ways.

The Maruti Story - R C Bhargava 2010-02-02

An extraordinary and rare insight into how a few determined entrepreneurs created an icon... - C. K. Prahalad The targets were stupendous and considered unachievable by almost everyone. Slightly over two years to find a suitable partner, finalize all legal documentation, get governmental approval to these agreements as well as to the investment proposals, build a factory, develop a supplier base to meet localization regulations, create a sales and service network, and develop and launch a peoples car that would sell 100,000 a year, in a

sector where Indian expertise was limited. And to do this as a public sector company, having to follow all governmental systems and procedures, and having to please both its masters in the government and Suzuki Motor Corporation. However, the Maruti project succeeded, and in ways that were unimaginable in 1983. The car revolutionized the industry and put a country on wheels. Suddenly, ordinary middle-class men and women could aspire to own a reliable, economical and modern car, and the steep sales targets were easily met. Twenty-six years later, the company, now free of government controls and facing competition from the world's major manufacturers who have entered the Indian market, still leads the way. Not only that, cars made by Maruti can be seen in all continents. By any yardstick, it is an incredible story, involving grit, management skill and entrepreneurship of a high order. R.C. Bhargava, who was at the helm of the company, and is currently its chairman, co-writing with senior journalist and author Seetha,

shows how it was done in this riveting account of a landmark achievement.

Unsafe at Any Speed - Ralph Nader 1966

Composites and Their Applications - Ning Hu
2012-08-22

Composites are a class of material, which receives much attention not only because it is on the cutting edge of active material research fields due to appearance of many new types of composites, e.g., nanocomposites and bio-medical composites, but also because there are a great deal of promise for its potential applications in various industries ranging from aerospace to construction due to its various outstanding properties. This book mainly describes some potential applications and the related properties of various composites by focusing on the following several topics: health or integrity monitoring techniques of composites structures, bio-medical composites and their applications in dental or tissue materials, natural

fiber or mineral filler reinforced composites and their property characterization, catalysts composites and their applications, and some other potential applications of fibers or composites as sensors, etc. This book has been divided into five sections to cover the above contents.

Venture Deals - Jason Mendelson 2011-07-05

An engaging guide to excelling in today's venture capital arena Beginning in 2005, Brad Feld and Jason Mendelson, managing directors at Foundry Group, wrote a long series of blog posts describing all the parts of a typical venture capital Term Sheet: a document which outlines key financial and other terms of a proposed investment. Since this time, they've seen the series used as the basis for a number of college courses, and have been thanked by thousands of people who have used the information to gain a better understanding of the venture capital field. Drawn from the past work Feld and Mendelson have written about in their blog and augmented with newer material, *Venture Capital Financings* puts this discipline in perspective and lays out the strategies that allow entrepreneurs to excel in their start-up companies. Page by page, this book discusses all facets of the venture capital fundraising process. Along the way, Feld and Mendelson touch on everything from how

valuations are set to what externalities venture capitalists face that factor into entrepreneurs' businesses. Includes a breakdown analysis of the mechanics of a Term Sheet and the tactics needed to negotiate Details the different stages of the venture capital process, from starting a venture and seeing it through to the later stages Explores the entire venture capital ecosystem including those who invest in venture capitalist Contain standard documents that are used in these transactions Written by two highly regarded experts in the world of venture capital The venture capital arena is a complex and competitive place, but with this book as your guide, you'll discover what it takes to make your way through it.
