[Lemon-Aid New Cars and Trucks 2012](#) - Phil Edmonston
2011-01-01

Phil Edmonston, Canada's automotive "Dr. Phil," pulls no punches. He says there's never been a better time to buy a new car or truck, thanks to a stronger Canadian dollar and an auto industry offering reduced

prices, more cash rebates, low financing rates, bargain leases, and free auto maintenance programs. In this all-new guide he says: Audis are beautiful to behold but hell to own (biodegradable transmissions, "rodent snack" wiring, and mind-boggling depreciation)Many 2011-12

automobiles have "chin-to-chest head restraints, blinding dash reflections, and dash gauges that can't be seen in sunlight, not to mention painful wind-tunnel roar if the rear windows are opened while underway Ethanol and hybrid fuel-saving claims have more in common with Harry Potter than the Society of Automotive Engineers GM's 2012 Volt electric car is a mixture of hype and hypocrisy from the car company that "killed" its own electric car more than a decade ago You can save \$2,000 by cutting freight fees and "administrative" charges Diesel annual urea fill-up scams can cost you \$300, including an \$80 "handling" charge for \$25 worth of urea Lemon-Aid's 2011-12 Endangered Species List: the Chinese Volvo, the Indian Jaguar and Land Rover, the Mercedes-Benz Smart Car, Mitsubishi, and Suzuki

The New Collective Bargaining - Gary Chaison
2012-06-12

This book explains how collective bargaining has changed in important and

lasting ways over the past decade. We are now seeing a new and powerful strain of the concession bargaining that traces its roots back to the early 1980s. The collective bargaining of the past decade can be characterized as ultra-concession bargaining because it is an intense and self-perpetuating deviation from earlier concession bargaining. Employers now act and unions react, rather than the other way around. Employers no longer have to establish a credible case of financial hardship, or commit to the traditional quid pro quo of saving jobs in return for lower labor costs, or guarantee singularity (that concession bargaining is a single even that will not have to be repeated). Not all collective bargaining occurs as this extreme variant but it has become the prevailing form. Essentially, there has been a sea change in collective bargaining in America. The book describes the transformation of collective bargaining in a lively and readable manner, avoiding academic, legalistic or technical

jargon, and it will appeal to persons interested in the future directions of collective bargaining and unionism in America, (e.g., the general public, graduate and undergraduate students in human resource management and industrial relations courses, and labor relations managers and union activists and staff). The book deals with aspects of union revival as it asks whether ultra-concession bargaining is cause or outcome of the unions' declining influence in the American economy and society. Above all, by using published reports on bargaining and interviews and surveys of bargaining settlements, the book shows where the concession bargaining is now and where it is heading.

Ford Model T Coast to Coast

- Tom Cotter 2018-05-15

A photo-filled account of traveling the Lincoln Highway in a century-old automobile, and contemplating a future of self-driving cars: "[An] epic road trip." —USA Today Driverless cars are on the horizon, but before the world falls asleep at the wheel, let's look back down the road from whence we have come. Ford Model T Coast to Coast documents the cross-country adventure of two brave drivers as they pilot a hundred-year-old Model T on a 3,000-mile journey from the Atlantic Ocean to the Pacific Coast. This book is as much a contemplation of early-twentieth-century American life as it is a fond farewell to the automotive age. Can the car still be the vehicle of freedom and discovery when we're no

longer in command? Or will we finally be able to fully appreciate the scenery rushing past? Accompanied by Michael Alan Ross' evocative photography, Tom Cotter stops in small towns, meets local people, and hears their stories about cars, travel, and life. The two also explore back roads adjacent to his main route, the Lincoln Highway—the first transcontinental road. Significant cross-country runs, such as those by speed-record setter Cannonball Baker and literary adventurers Jack Kerourac, John Steinbeck, and Bill Bryson, are considered in light of the driverless future. Cotter also drives some of the same roads that a young Edsel Ford traveled in his father's Model T upon high school graduation in 1917. In addition to the central road trip, Cotter visits interesting automotive and transport museums as well as "keepers of the flame" such as Model T clubs, mechanics, junkyards, and collectors across the country. He also records the numerous trials and tribulations in keeping a very old car

operating on a very long journey—something the driverless car of the future is unlikely to encounter.

Lemon-Aid Used Cars and Trucks 2010-2011 - Phil

Edmonston 2010-05-11

"The automotive maven and former Member of Parliament might be the most trusted man in Canada, an inverse relationship to the people he writes about." - The Globe and Mail Lemon-Aid shows car and truck buyers how to pick the cheapest and most reliable vehicles from the past 30 years of auto production. This brand-new edition of the bestselling guide contains updated information on secret service bulletins that can save you money. Phil describes sales and service scams, lists which vehicles are factory goofs, and sets out the prices you should pay. As Canada's automotive "Dr. Phil" for over 40 years, Edmonston pulls no punches. His Lemon-Aid is more potent and provocative than ever.

The Book of the Lamborghini Urraco -

Arnstein Landsem 2011-03-15

The Lamborghini Urraco. The little baby Lambo that was meant to beat the Porsche 911 and Ferrari 308, but which ran into a myriad of problems. This book shows what really happened, and why the car never got the chance it deserved. The Urraco lived on as the Silhouette and Jalpa, and the Jalpa was greatly responsible for keeping the Lamborghini brand alive in the 80s. The full story of these V8 Lamborghinis is told here, with exclusive interviews from the leading figures behind the cars. The book also includes detailed chapters on what to look out for when buying one of these future supercar classics. Hundreds of amazing photos

Customer Engagement -

Roderick J. Brodie 2015-12-14
How customers and consumer behavior have been changing due to technology and other forces is of prime interest. This book addresses the central questions regarding new emerging consumer behavior; how does social media affect this behavior; how and at what points do emotions affect consumer decisions; and what triggers this is: How should engagement be conceptualized, defined and measured? How do social media and other marketing activities create engagement? The book draws on the rich, extensive knowledge of the authors who are pioneers in the field. The book's editors have identified the weakness in the current knowledge and aim to address this gap by touching on significant conceptual and empirical contributions to this emerging literature stream, providing readers with a comprehensive contemporary

perspective of customer engagement. The book also endeavors to develop a richer narrative around the notion of social media and customer engagement, and the non-monetary notion of social media within new media-based social networks.

Formula 5000 Motor Racing

- Derek Lawson 2010-02-01

This book is a trip down memory lane, recalling the days when Formula 5000 cars roared around the race tracks in Britain and Europe, creating a lot of noise and, occasionally, dust. The wail of a 5-litre engine was often more spine-tingling than ANY other racing

car! Nowadays, many of the same cars show modern day spectators just what Formula 5000 was, back in the day. Few, if any, of the drivers are prima-donnas and many want to know what their car did before it came into their possession. This book answers those questions and many more.

Alpine & Renault - Roy Smith
2010-06-15

Sports prototype racing is about endurance, for the drivers, for the teams and for the companies involved. In this story we see the effort, the blood, the sweat and the tears, reputations won and lost, life and also death. The cars, some of the most evocative ever seen, are described in detail. We see stunningly beautiful, creative, slippery aerodynamic

designs that allowed Alpine to take many class wins and outright victories in championship racing, from 1963 to 1969. You will feel the passion and dedication for racing from interviews with the men involved, illustrated with dramatic period photographs.

more hands-on type materials such as cases, exercises, and application. Schermerhorn uses a conversational and interactive writing style to master concepts in a bite-size and fundamental approach. This text presents managerial concepts and theory in a straight-forward, interesting style with a strong emphasis on application. The discussion of theory is framed in a unique, engaging, and

concise way. The goal is to promote critical thinking and ability to make sound business decisions using managerial theory. Concepts are explored and reinforced by most hands-on applications, exercises, cases, and the integration of technology. The text also focuses on the most important aspects of the POLC model, emphasizing skill-building.
